

# Streamlining Business Energy for Your Success

Empowering UK Businesses to Take Command of Their Energy

**Are you in the market for a new energy contract?**

**Seeking ways to enhance energy efficiency and contribute to environmental sustainability?**

**Look no further than Lumina Energy!**

We understand that your time as a business owner is valuable, and the intricacies of navigating the world of business energy should not burden your to-do list. You have a business to run.

The exciting news is that we are energy experts who can navigate the labyrinth of electricity, gas, and water contracts on your behalf, while also guiding you towards a sustainable, net-zero future through energy efficiency and eco-conscious practices.

## We can assist your business in:

Identifying electricity, gas, or water contracts tailored to your growing business demands.

Maximising energy usage and expenditure through our cutting-edge data management solution.

Crafting a bespoke Carbon Reduction Plan to achieve your net-zero aspirations.

With our dedicated team of Energy Consultants and Account Managers, your business energy needs are entrusted to safe and expert hands. Since our establishment in 2012, we've fostered relationships with over 20 energy suppliers, including industry leaders, and we exclusively partner with Everflow for our water contracts.

Working with businesses of all sizes across the UK, we offer unbiased, customised advice. Our commitment to enduring relationships with our customers sets us apart.

**You know your business,  
we know energy  
let's work together**
